DETAILED ACTION

Claim Objections

1. Claim 29 is objected to because non-idiomatic English in lines 7-8 of the claim and it is unclear what applicant is claiming. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 29 is rejected under 35 U.S.C. 102(b) as being anticipated by Haneda (5,537,188).

Haneda teaches a process cartridge comprising an image carrying body; at least one process unit; and a developer replenishment box, wherein the developer replenishment box is communicatively connected to a developing housing; and wherein the developer replenishment box is disposed in an upper position than a latent image writing position on the image carrying body (figure 1).

Allowable Subject Matter

4. Claims 1-21, 23-28, and 31 are allowed.

Response to Arguments

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
